Report:

The meeting attended by Miss Fredricks, Mr Marble and Mrs Grunert at the County Court House for the report of the County Planning Commission on Tuesday Nov. 12 at 8 P.M.

Mr. Pomeroy did most of the talking. Mr Pomeroy being the head of the Planning Commission. He told of the Commission having studied the future of the County from every angle. From control of the erosion of the ground, which is very bad in places, to cleaning of the ugly sights along the highways, planning where business districts were to be allowed in unincorporated areas as well as in the incorporated ones, and putting in new building laws etc. Eventually he came to the thing most of the people present were most vitally interested in and that is: the Recreational areas.

Mr Pomeroy stressed the fact that all of these planns were not positive but were tentatively being considered and may be changed before the final planns are submitted to the Supervisors But the No. 1 Area is to be the whole of the beach at Stinson Beach from the rocks down the sand spit taking in all of the lagoon and on past Bolinas to Dukesberry reef. In this area the county already owns 1800 feet at Stinson Beach and all of the beach below the bluffs of the Bolinas Beach Subdivision.

No. 2 plann was for the purchase of some 9 miles of bay shore land around California City.

No. 3 was all of the west coast of Tamalis Bay, to be reserved for hikers and boating parties. No roads to actually touch the beaches.

Have lost track of the sequence of the next plann but there were several other places mentioned. The principal one being the acquisition of the whole of Papermill Creek where the highway skirts it. Some mention was made of the acquisition of the entire forested area between Five Brooks, Bolinas and Pt. Reyes and the Ocean. This to be reserved mainly of hiking purposes and left wild.

These planns when completed will be submitted and the hope is that the County will slowly acquire them over a period of time, and with the probable help of San Francisco.

After much discussion by the members present it was decided to find out if some one would not go into the garbage business and collect and dump and make their own arrangements with the Bolinas District, for the privilege of dumping there. Notes of Planning League Meeting

held in San Rafael City Hall on Tuesday evening Oct. 20, 1936.

There was a fairly representative group present and the President Mrs. Evers, said the principal object of the meeting was to organize a more couty wide League with more representatives of the various districts.

She declared that if there was not enough interest shown in the next few months, and if we did not impress our Supervisors with the importance of having a Planning Commission we might as well give up and forget about it all.

She call ed for smaller sections to be organized and these sections, preferably three, were to delve into their particular subject matter very thoroughly, then come and ~~with~~ report to the League with some specific plan, which the League could in turn present to the Planning Commission for them to prepare for presentation to the Supervisors. While this section was investigating it would be part of ~~their~~ duty, each individual, to contiunally impress upon his or her neighbors the importance of working together to accomplish good for the benefit of all of the people of the county. The supervisors are never impressed unless a large number of people express a desire for something. If that expression is complete enough they get what they go after.

Therefor three sections were temporarily orgainzed. One of which was for Conservation and Zoning: the second for Highway signing and beautification: the third for Recreation.

Everyone was asked which they were most interested in. I told them I was just temporarily representing the Club, but that I personally would prefer to work for Recreational grounds. But that the permanent representative might wish to change to one of the other sections.

The Recreational temporary chairman is Mrs. Norman D. Livermore of Ross. She will notify all members of the next meeting and where it is to be held.

Committee Reports:

The treasurer reported the sum of $134.67 in the bank.

Communications:

The secretary read a letter sent the Club by the President of the Marin County Planning League in which the Club was invited to send a representative to their meetings.

The secretary explained that this letter arrived in September and there being no meeting of the organization in October for lack of a quorum, she, the Secretary, attended the meeting as temporary representative as per attached report.

A permanent representative necessarily needing to be appointed, a motion was made and seconded that the Secretary be appointed to fill that position, and represent the organization at the League meetings.

New Business:

Mr. Smith of Bolinas and his wife were present. Mr. Smith came at Mr. Gilberts' request so that the members might get down to concrete facts about the garbage situation. Mr. Smith said that if the business warranted his doing so, he would send a collecting truck to Stinson. First our Club must make arrangements with the Bolinas Sanitary Board for the privilege of dumping at the Bolinas dump. A committee was appointed to get down to basic facts on this matter and try to make definate arrangements. Mr. Gilbert, Mr. W. Airey, and Mr. W. B. Marble were the members appointed.

A motion was made and seconded that the Club give the Secretary a vote of thanks for attending the League Meeting voluntarily.
